## PREFATORY NOTE

---

This Index has been prepared by Miss Lucy Allen Paton, under the direction of the Editors. The general plan, arrangement, and scope were determined by the Editors, so that Miss Paton's responsibility is limited to details of arrangement and accuracy of execution. The unusual size of the Index is due to the great number of items contained in the "News" and "Discussions," for which a full index seemed especially desirable.

*Italic numerals refer to the volumes and pages of the Annual Supplement.*
